OF INTEREST TO WOMEN

Dispensing Freckles.

Freckles, so regular in their annual return, have annoyed milady from time immemorial. There are many home remedies to make use of, such as buttermilk, lemon juice and horseradish water that should not be despised. By bathing the face in hot water for a few minutes to open the pores, and afterward in buttermilk or whatever you wish to use, allowing it to dry on, you can bleach the skin considerably. If you have the opportunity to do this several times during the day, at night you can apply your massage cream or bleaching cream.

Massage is valuable for removing the vexing marks, for whatever tends to promote circulation helps the skin.
